Thanks, Tony. Yesterday's meeting was very useful and I think you have a lot of value to add to our overall PREP communication.
Roger

Here are the QS Communication Plans that I mentioned yesterday whose format could be used as a model; I will also send you the hard copy Strategy document that should help the team if they decide it provides value. This is the doc that provides an assessment of critical audiences and their specific needs. Will get that to you on Monday. Thanks for taking the time yesterday to share our thoughts on moving forward.
